- Frameworks:** Laravel, Livewire, Node.js, Express.js, jQuery, Alpine.js
- Databases:** MySQL, MongoDB
- UI / Web:** Tailwind CSS, Bootstrap, AJAX, Responsive Design
- Other:** REST APIs, MVC, Git, Authentication & Authorization

Experience

Hyvikk Solutions, Bhavnagar

May 2024 – Present

Web Developer

- Developing and maintaining Laravel-based applications for business workflows and internal products.
- Worked on production systems including **HRMS**, **Skill Sales**, **DigiBooks**, **DoodhSetu**, and **CorpPark**.
- Implemented REST APIs, authentication, role-based access control, and admin dashboards.
- Optimized database queries and application performance using eager loading and pagination.

Web Developer Intern

Feb 2024 – Apr 2024

- Trained in Laravel framework fundamentals including MVC architecture, routing, authentication, and CRUD operations.
- Built an end-to-end e-commerce application as part of internship training.

Projects

HRMS System HR Automation Platform

Laravel, Livewire, Alpine.js, Tailwind

- Automated leave and WFH workflows by replacing Google Forms, and developed additional HR modules including salary and expense management, currently used by 40+ employees.
- Implemented role-based access with multi-guard authentication for employees and admins.
- Built approval workflows via portal, email, and Slack with automated payslip generation.

DoodhSetu Milk Distribution & Billing System

Laravel, jQuery, Bootstrap, REST APIs

- Developed admin panel and APIs for daily milk orders currently handling data of 100+ customers.
- Implemented vendor, customer, pricing, invoicing, and revenue analytics modules.
- Optimized performance for 6,000+ records using pagination and eager loading.

Skill Sales Training & Quiz Platform

Laravel, jQuery, Bootstrap

- Developed admin panel and REST APIs for a customer training application.
- Integrated external authentication system and built quiz, training, and result management.
- Supported multiple training content types including PDFs, URLs, and text.

DigiBooks Digital Learning Platform

Laravel, jQuery, Bootstrap

- Built a digital book system with school-based access control and content limits.
- Implemented topic-wise content management with PDFs, images, and YouTube links.
- Developed branded QR codes to access book content and school-specific information.

CorpPark Parking & Vehicle Management System

Laravel, jQuery, Bootstrap

- Built QR-based vehicle entry/exit tracking for corporate parking management.
- Implemented modules for users, vehicles, buildings, offices, and guest access.
- Enabled amenity booking request and approval for office users and managers.
